The original house was built in 1992 with 1,300 sq ft. A 24x26 great room was added off the back of the house in 1999 for an additional 600 sq ft on the main level and yet another 600 sq ft in finished basement area. The new great room is the perfect living or entertainment space. There are hardwood floors in most of the house (kitchen, dining, great room, and mud room) which makes for a clean living area and no allergies. Outside of the great room is a fantastic patio made of low maintenance stamped concrete and bordered by a rock garden.
